WORLD TAXPAYERS ASSOCIATION

The WTA is an international umbrella organization of approximately 50 member and observer taxpayer advocacy groups with a combined 2 million supporters.

It was founded in 1988 to create dialogue among a growing number of taxpayer associations and to foster and support the emergence of new taxpayer associations. WTA member and observer groups are committed to flatter and simpler taxes, tax competition, government transparency, protection of fundamental taxpayer rights and reasonable limits on government spending, taxes and debt.

Economic and political freedom is paramount to all WTA member and observer organizations. Currently, WTA organizations reside in 40 countries comprising approximately half of the world's population.

Member organizations have established regional bodies in Europe, Asia and Africa to collaborate with others (including the think tank community), organize campaigns and broaden the taxpayer movement.

In addition to regional events, every two years the WTA, in conjunction with a member organization, hosts the World Taxpayers Conference (WTC).
